Gimbal comparison, spring 2027

Aurora Studio - sample report with invented data, made for a demo

Five gimbals compared for a mirrorless camera with a 24-70 lens, for a full wedding day. All figures are invented for this demo.

Gimbal	Weight	Payload	Battery	Price
Model A	1.1 kg	3.2 kg	12 h	$289
Model B	0.9 kg	2.5 kg	10 h	$219
Model C	1.3 kg	4.0 kg	14 h	$349
Model D	1.0 kg	3.0 kg	9 h	$199
Model E	0.8 kg	2.0 kg	8 h	$159

- Recommendation: Model A for the best balance of battery and payload.
- Model C is the pick if you shoot with heavier lenses.
- Model E is the lightest but runs out first.
